

Project Design Phase-II

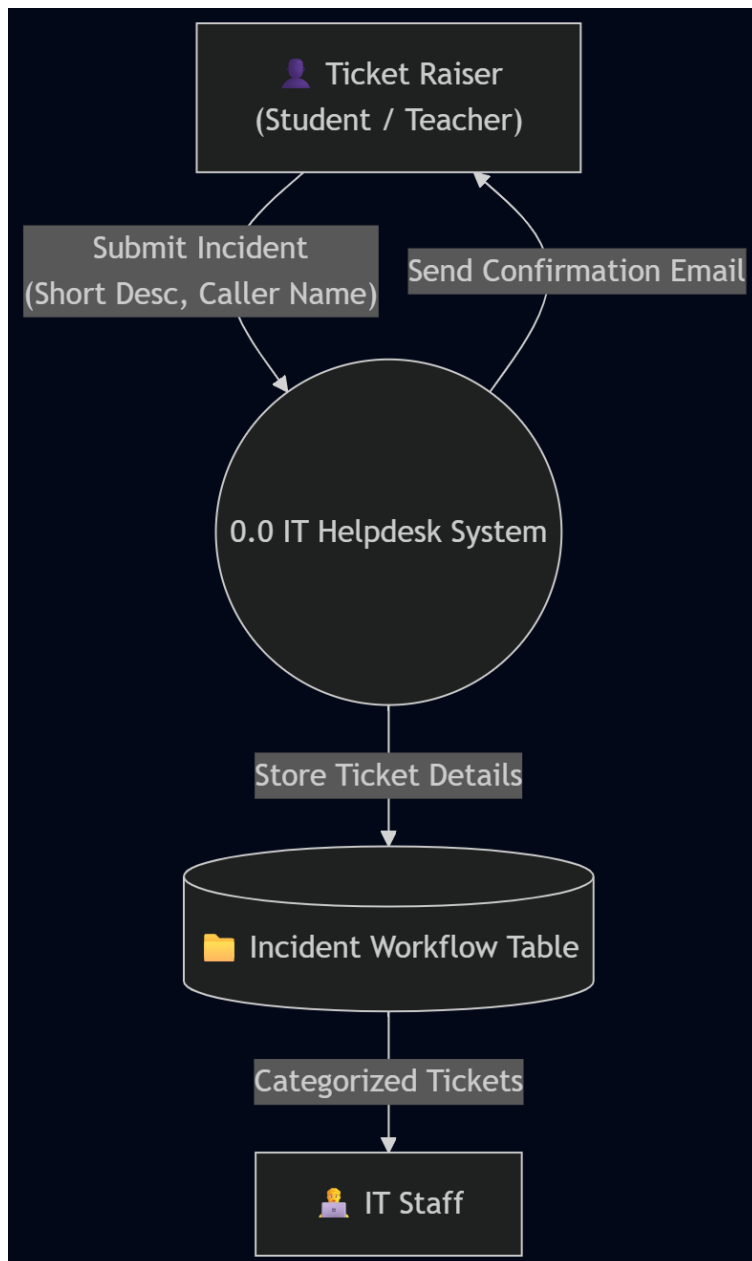

Data Flow Diagram & User Stories

Date	03 October 2026
Team ID	SWTID-2026-4647
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

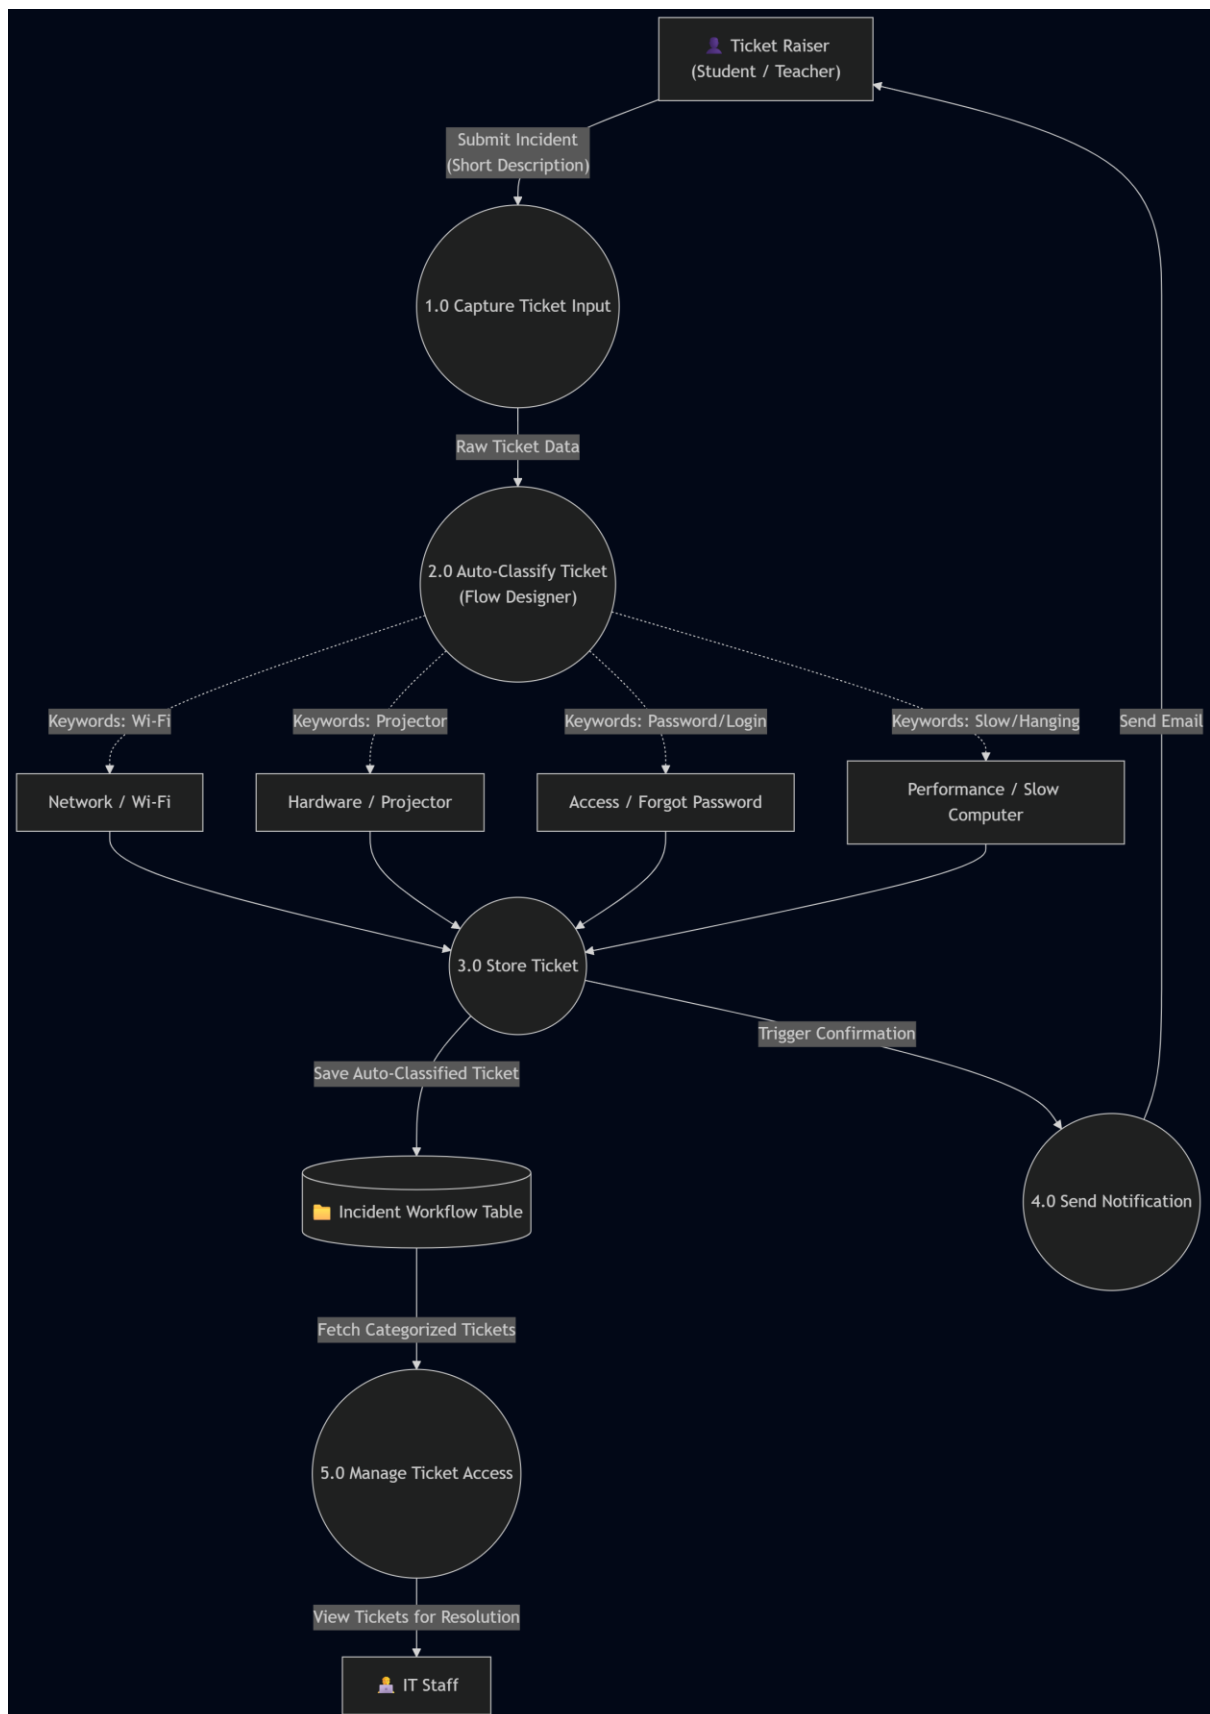

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Simplified:

Level0: Standard

User Stories:

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Student/Teacher	Ticket Submission	USN-1	As a user, I can submit a ticket by entering my name and short description.	Ticket is created successfully.	High	Sprint-1
Student/Teacher	Auto Classification	USN-2	As a user, my ticket is automatically classified into Category & Subcategory.	Ticket shows correct classification.	High	Sprint-1
Student/Teacher	Notification	USN-3	As a user, I receive an automated email confirmation after ticket creation.	Email is received with ticket details.	High	Sprint-1
IT Staff	Dashboard	USN-4	As IT staff, I can view categorized tickets in the Incident Workflow table.	Tickets are visible with classification.	Medium	Sprint-2
Administrator	Configuration	USN-5	As an admin, I can update Flow Designer rules for classification.	Rules can be modified without code.	Medium	Sprint-2
